

Systems

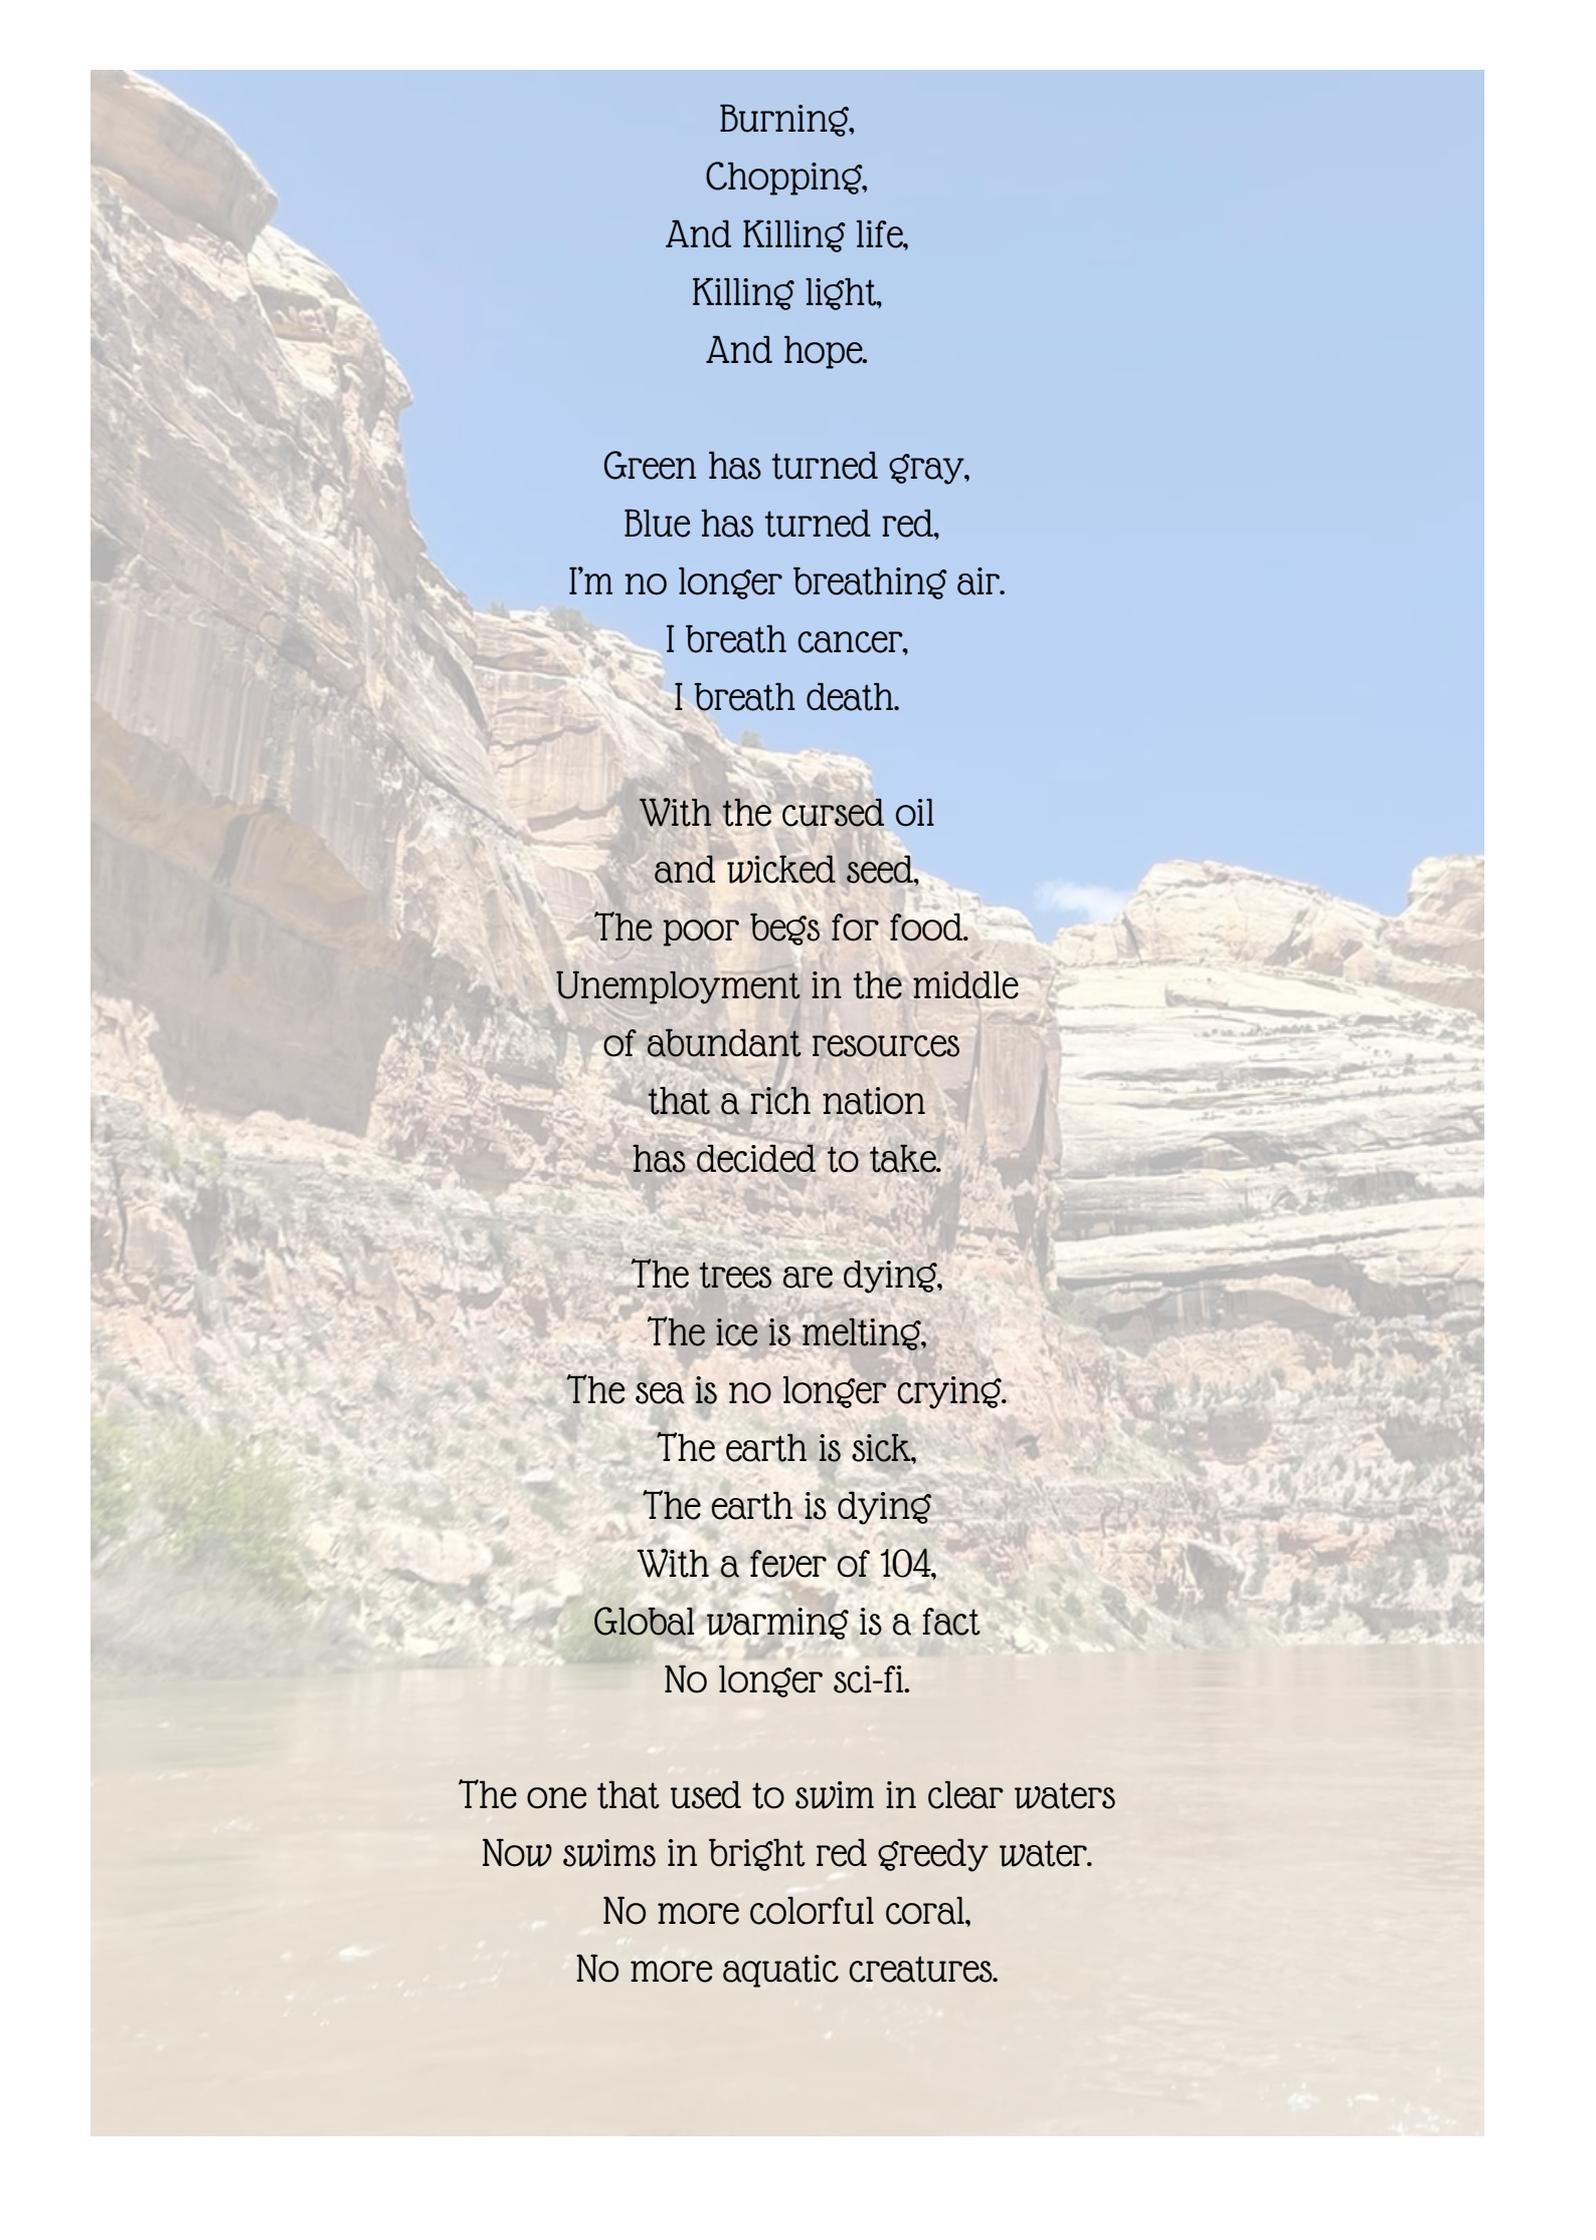

To my future generations
To my blood,
To my soul,
To the soil,
To the air.

I am mad,
I am sad,
I am angry,
because
the land is now
Contaminated,
Dirty,
And wasted.

I have mistreated
and disrespected
the precious gift
from above.

How is it possible
To destroy,
To take,
And forsake?

Money,
Ambition,
manipulation
and all the evils of the world
are destroying
My earthly home.

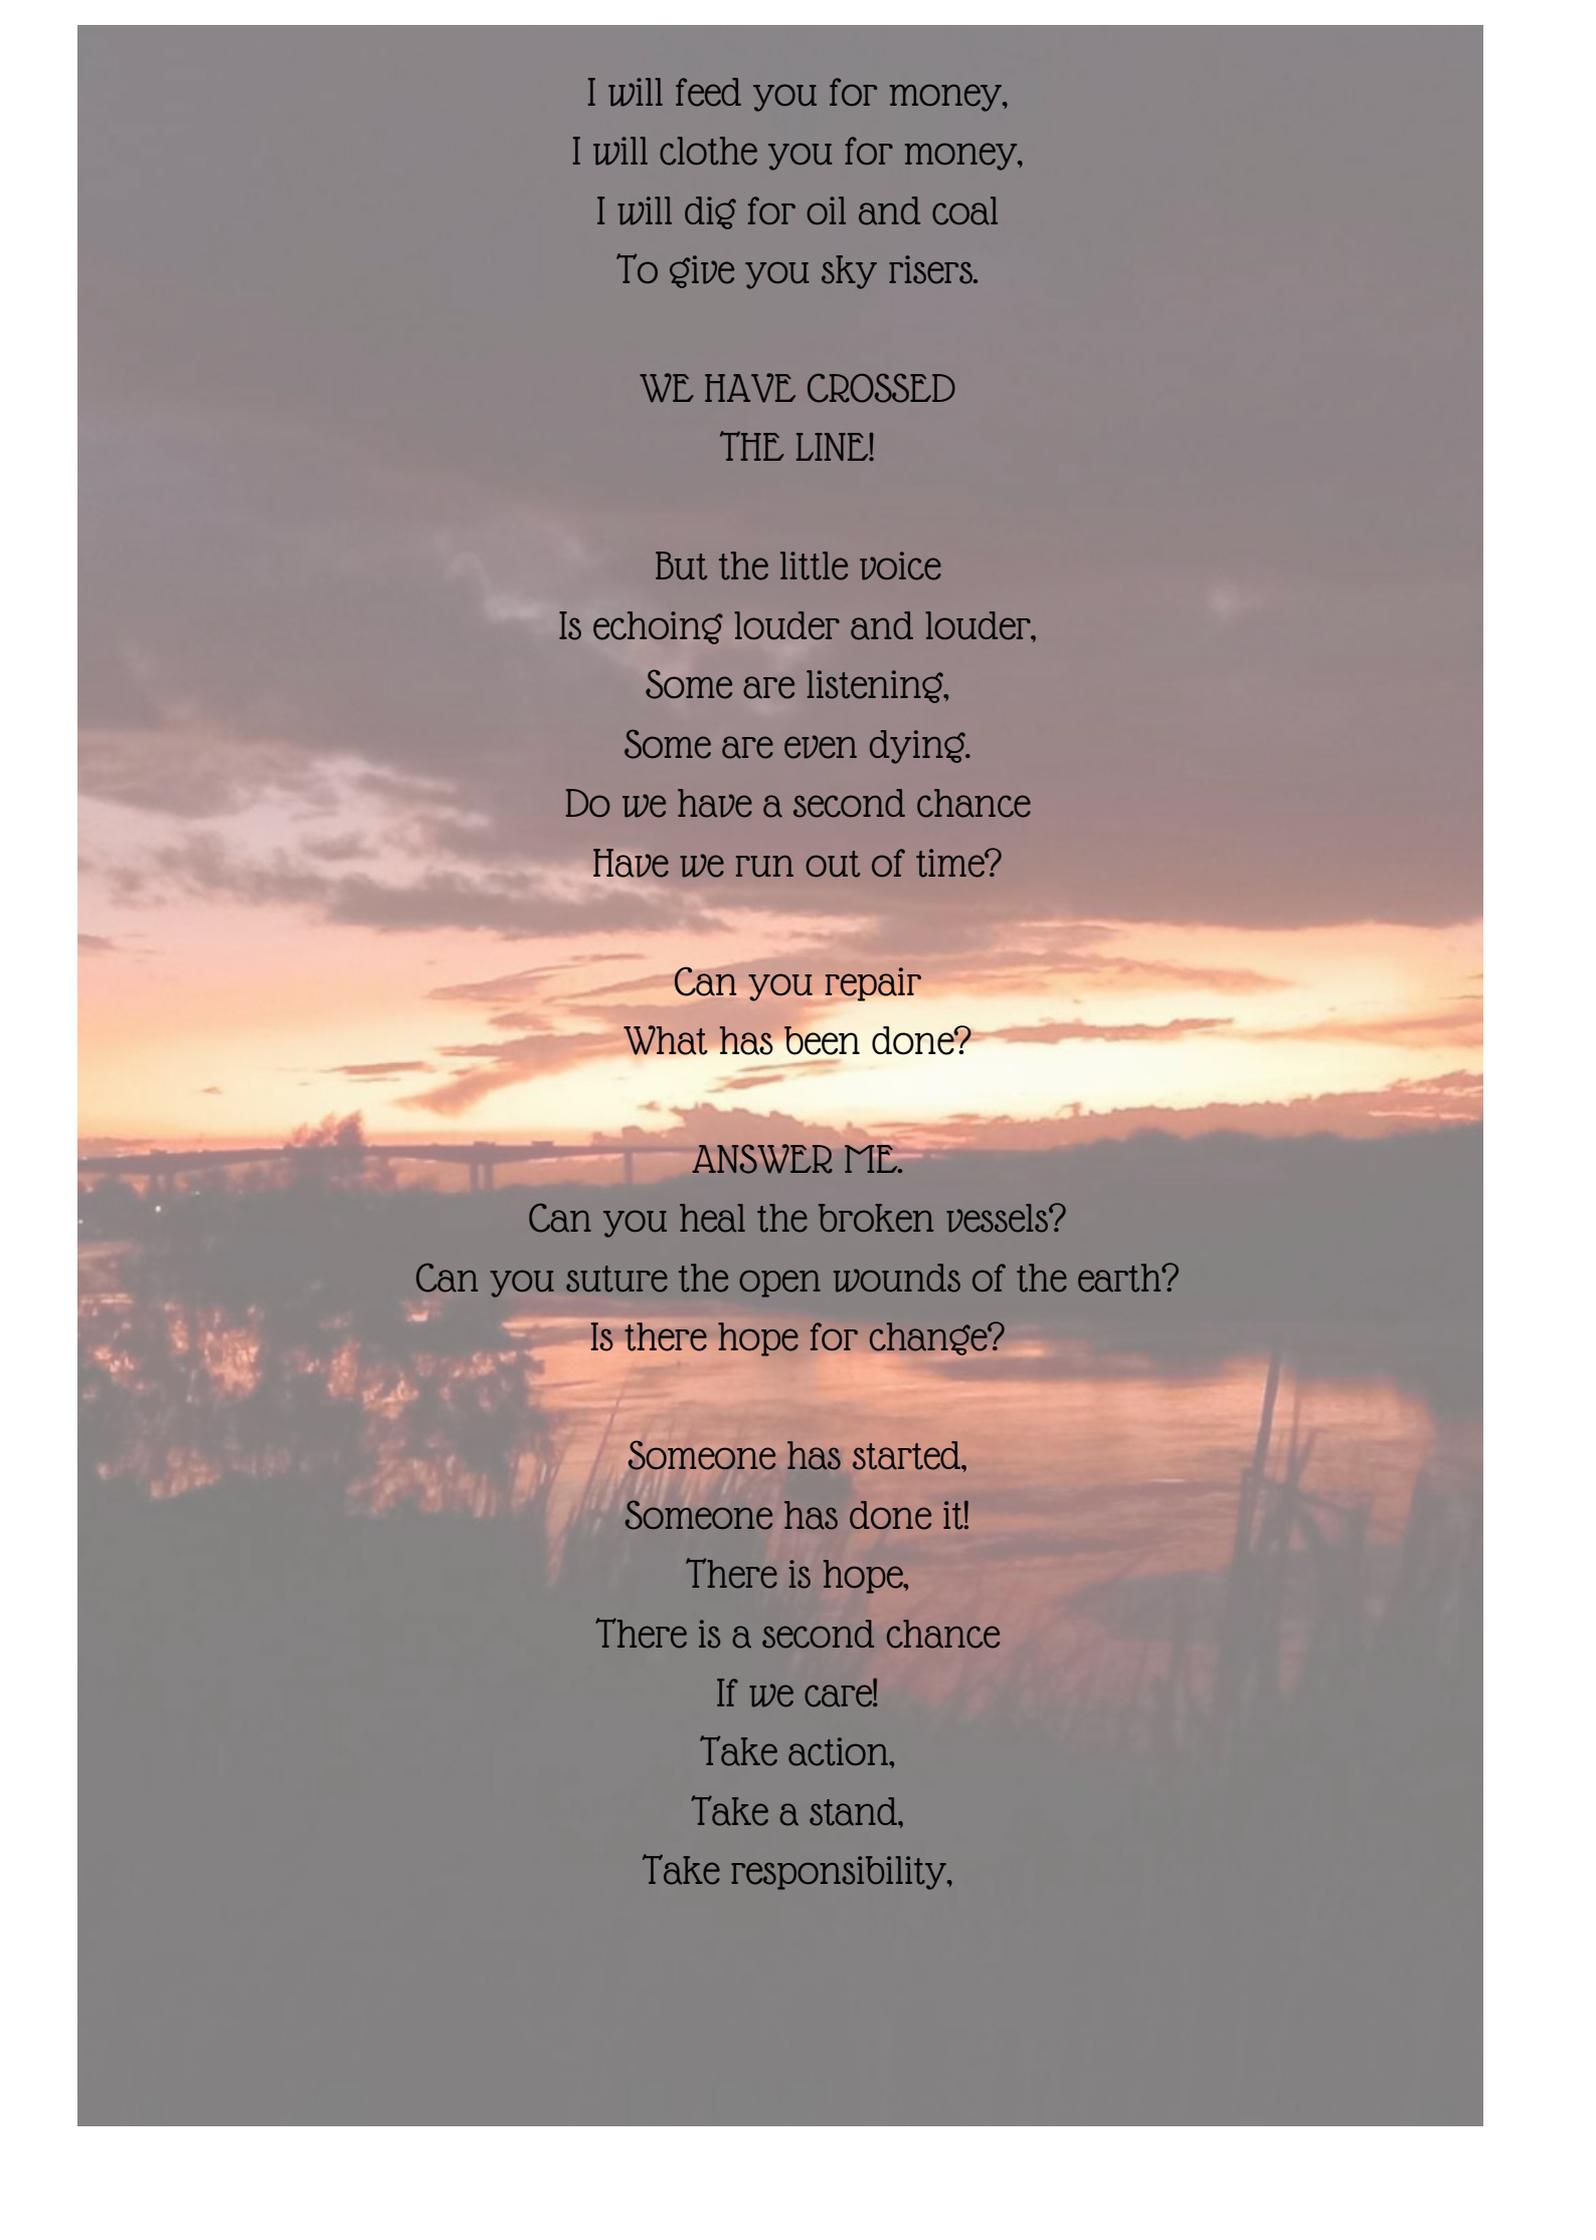

Burning,
Chopping,
And Killing life,
Killing light,
And hope.

Green has turned gray,
Blue has turned red,
I'm no longer breathing air.
I breath cancer,
I breath death.

With the cursed oil
and wicked seed,
The poor begs for food.
Unemployment in the middle
of abundant resources
that a rich nation
has decided to take.

The trees are dying,
The ice is melting,
The sea is no longer crying.
The earth is sick,
The earth is dying
With a fever of 104,
Global warming is a fact
No longer sci-fi.

The one that used to swim in clear waters
Now swims in bright red greedy water.
No more colorful coral,
No more aquatic creatures.

A sunset over a body of water with a bridge in the distance. The sky is filled with soft, orange and pink clouds, and the water reflects the light. The overall mood is contemplative and hopeful.

I will feed you for money,
I will clothe you for money,
I will dig for oil and coal
To give you sky risers.

WE HAVE CROSSED
THE LINE!

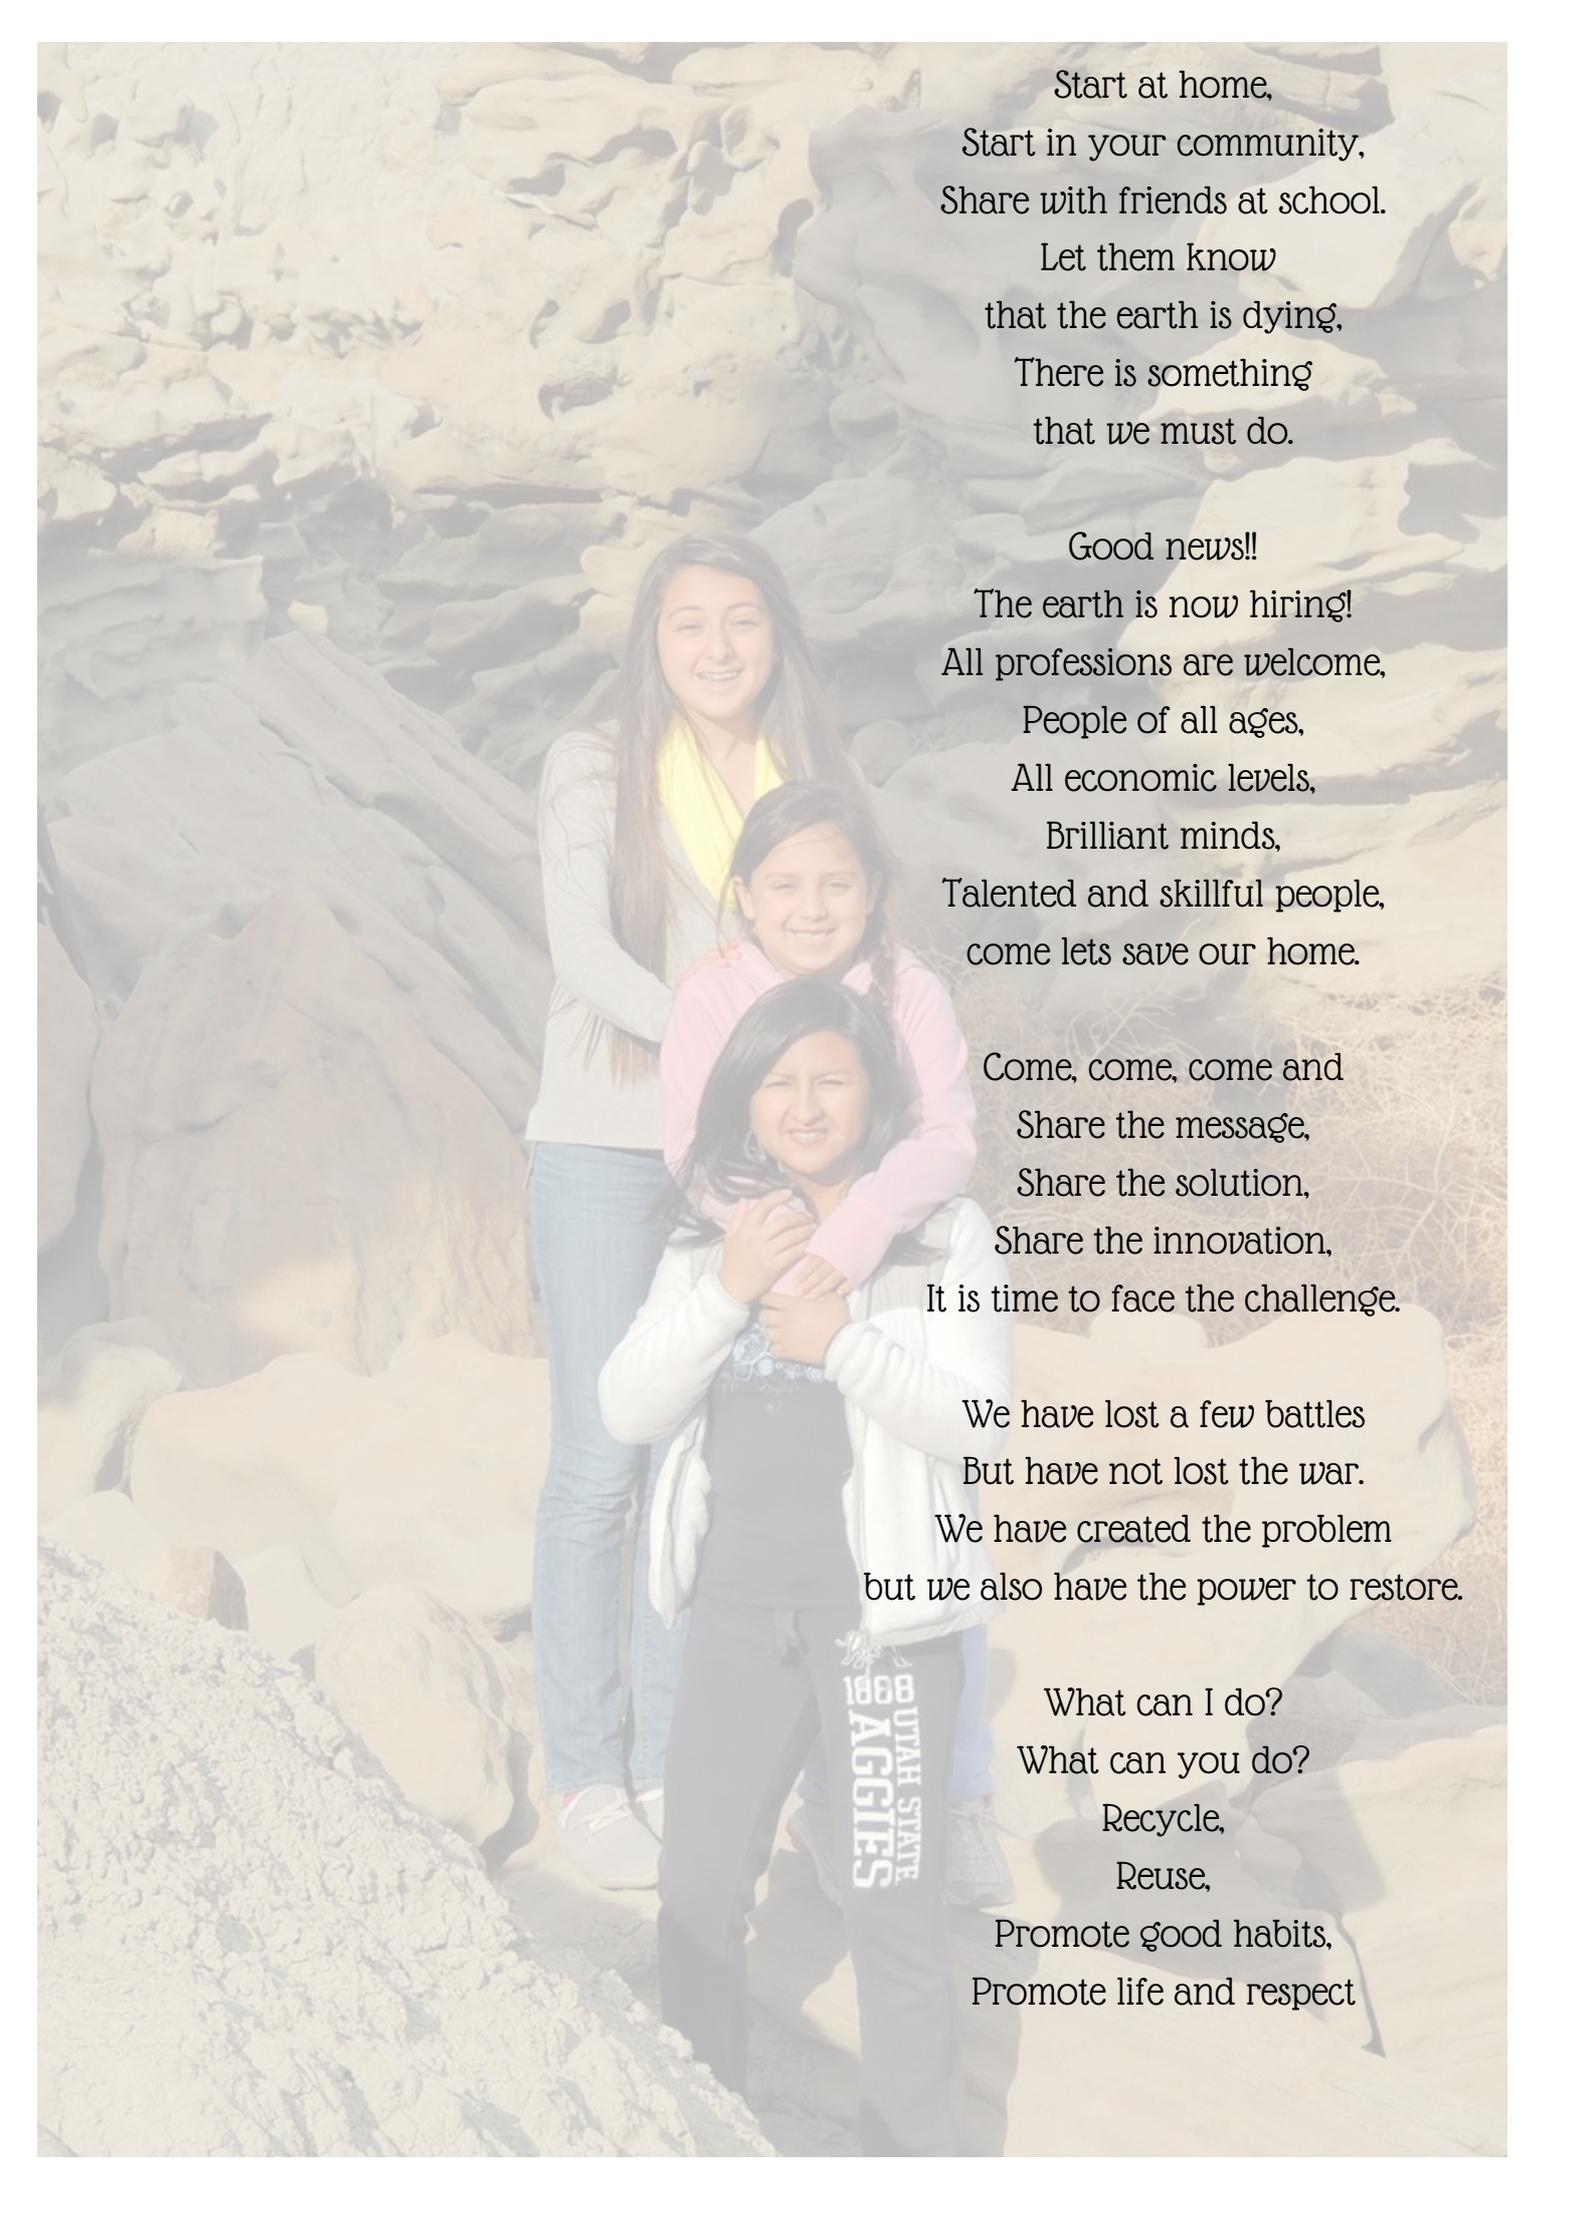

But the little voice
Is echoing louder and louder,
Some are listening,
Some are even dying.
Do we have a second chance
Have we run out of time?

Can you repair
What has been done?

ANSWER ME.

Can you heal the broken vessels?
Can you suture the open wounds of the earth?
Is there hope for change?

Someone has started,
Someone has done it!
There is hope,
There is a second chance
If we care!
Take action,
Take a stand,
Take responsibility,

Start at home,
Start in your community,
Share with friends at school.
Let them know
that the earth is dying,
There is something
that we must do.

Good news!!
The earth is now hiring!
All professions are welcome,
People of all ages,
All economic levels,
Brilliant minds,
Talented and skillful people,
come lets save our home.

Come, come, come and
Share the message,
Share the solution,
Share the innovation,
It is time to face the challenge.

We have lost a few battles
But have not lost the war.
We have created the problem
but we also have the power to restore.

What can I do?
What can you do?
Recycle,
Reuse,
Promote good habits,
Promote life and respect

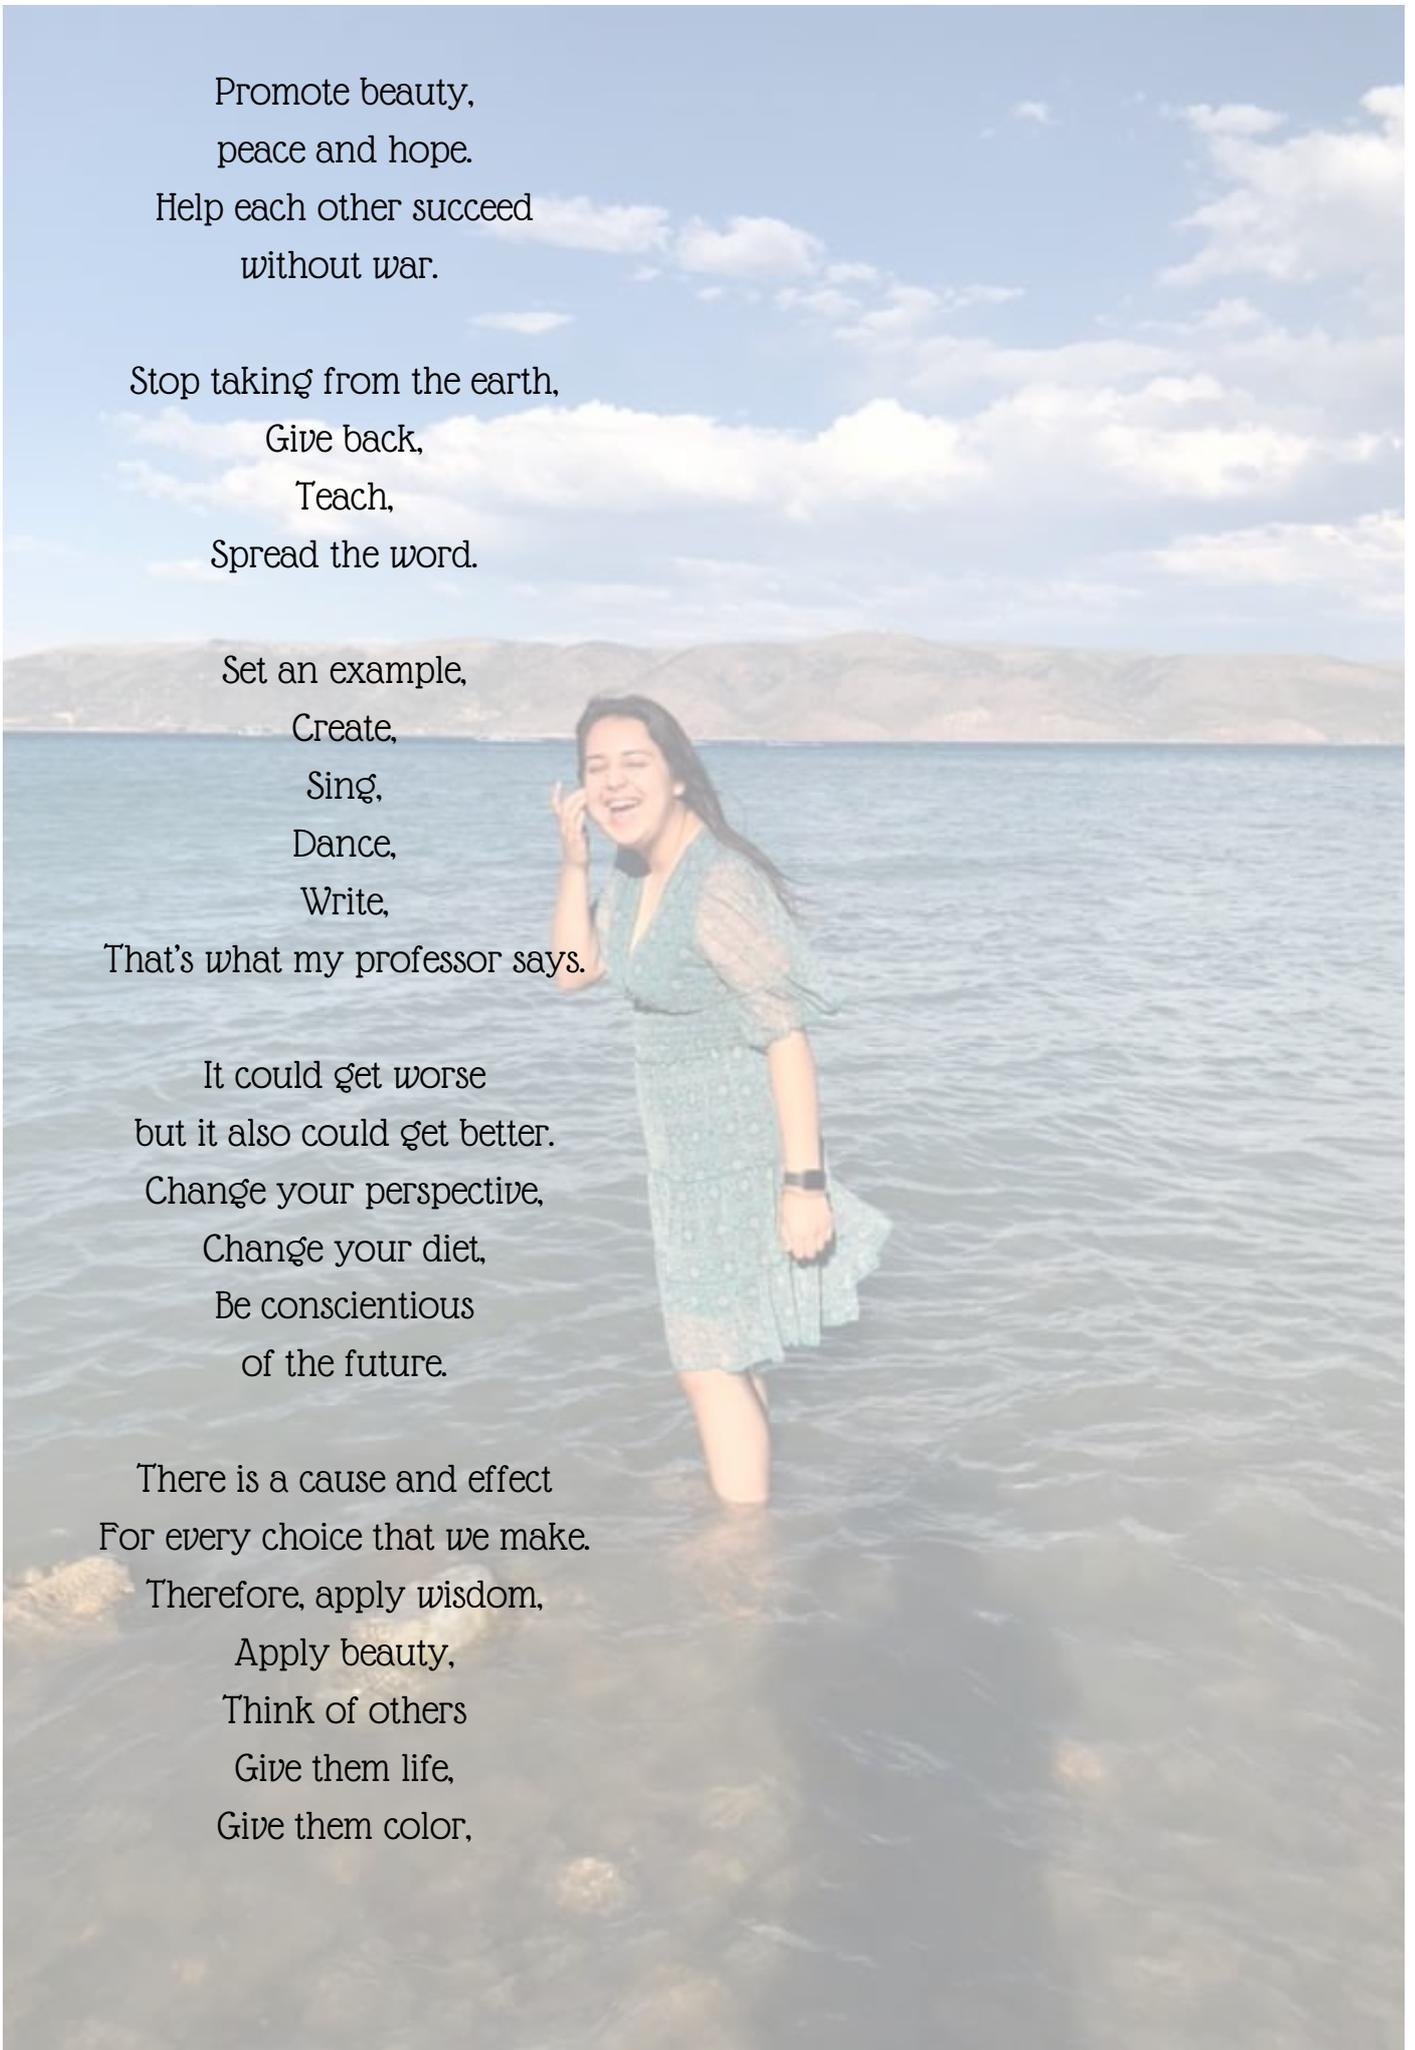

Promote beauty,
peace and hope.
Help each other succeed
without war.

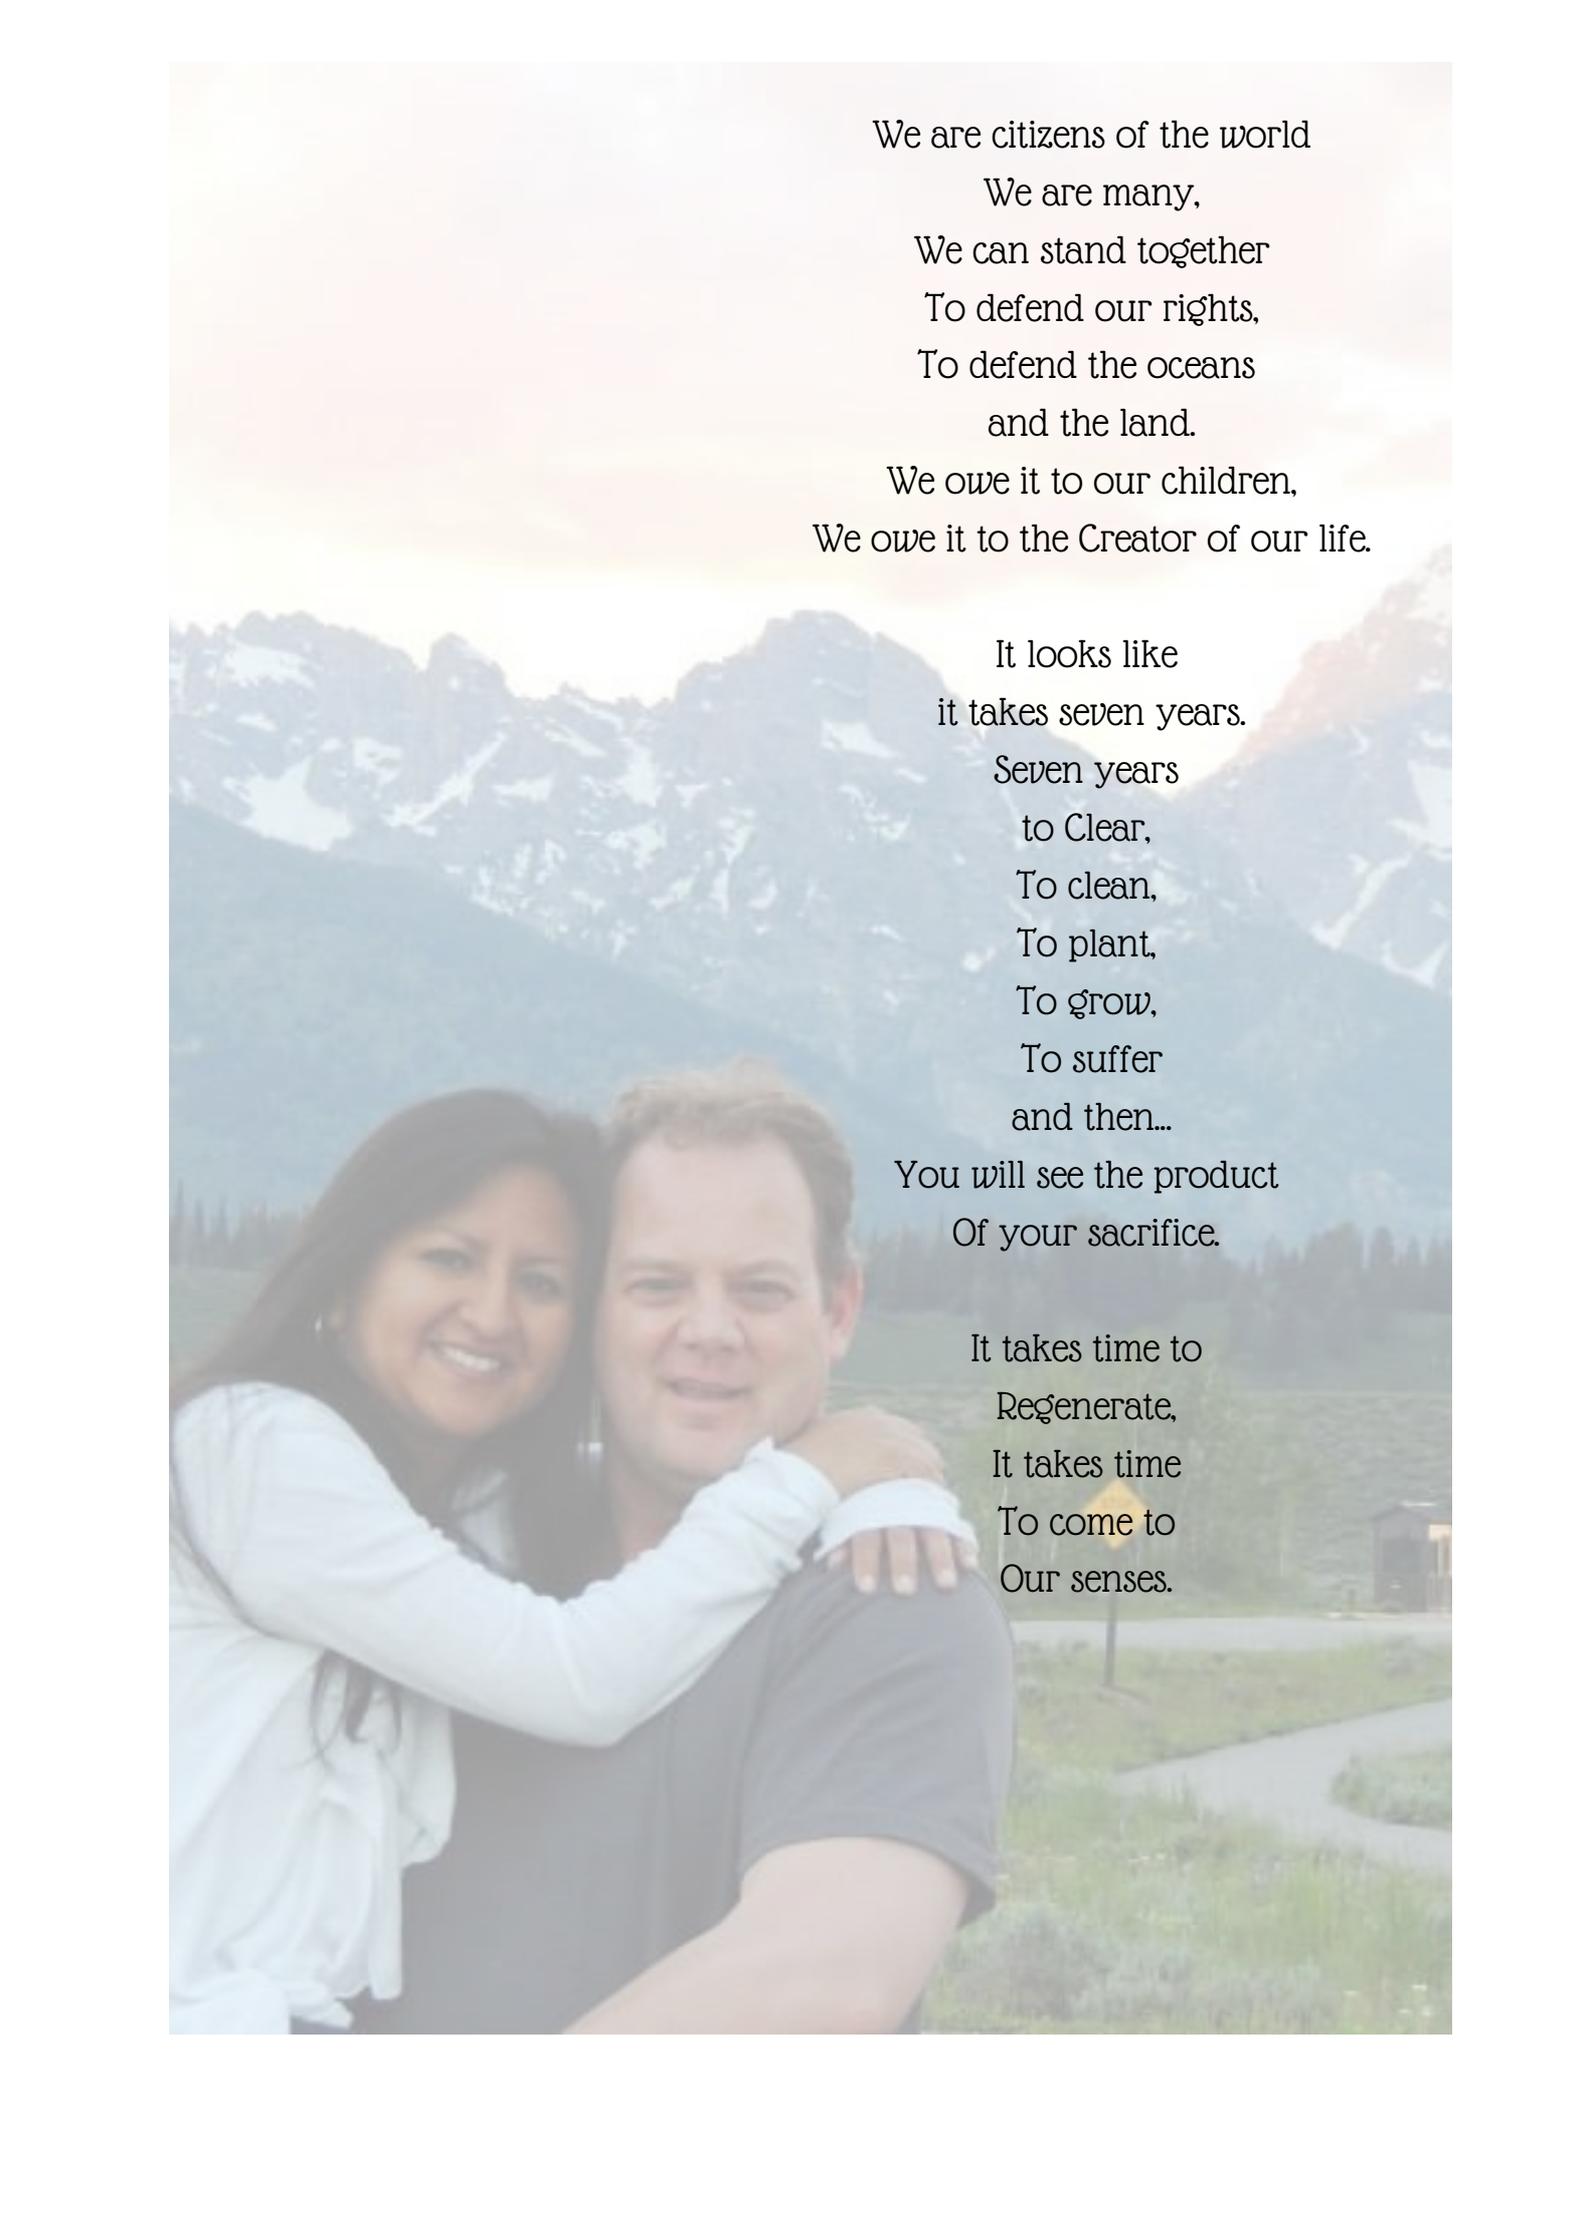

Stop taking from the earth,
Give back,
Teach,
Spread the word.

Set an example,
Create,
Sing,
Dance,
Write,
That's what my professor says.

It could get worse
but it also could get better.
Change your perspective,
Change your diet,
Be conscientious
of the future.

There is a cause and effect
For every choice that we make.
Therefore, apply wisdom,
Apply beauty,
Think of others
Give them life,
Give them color,

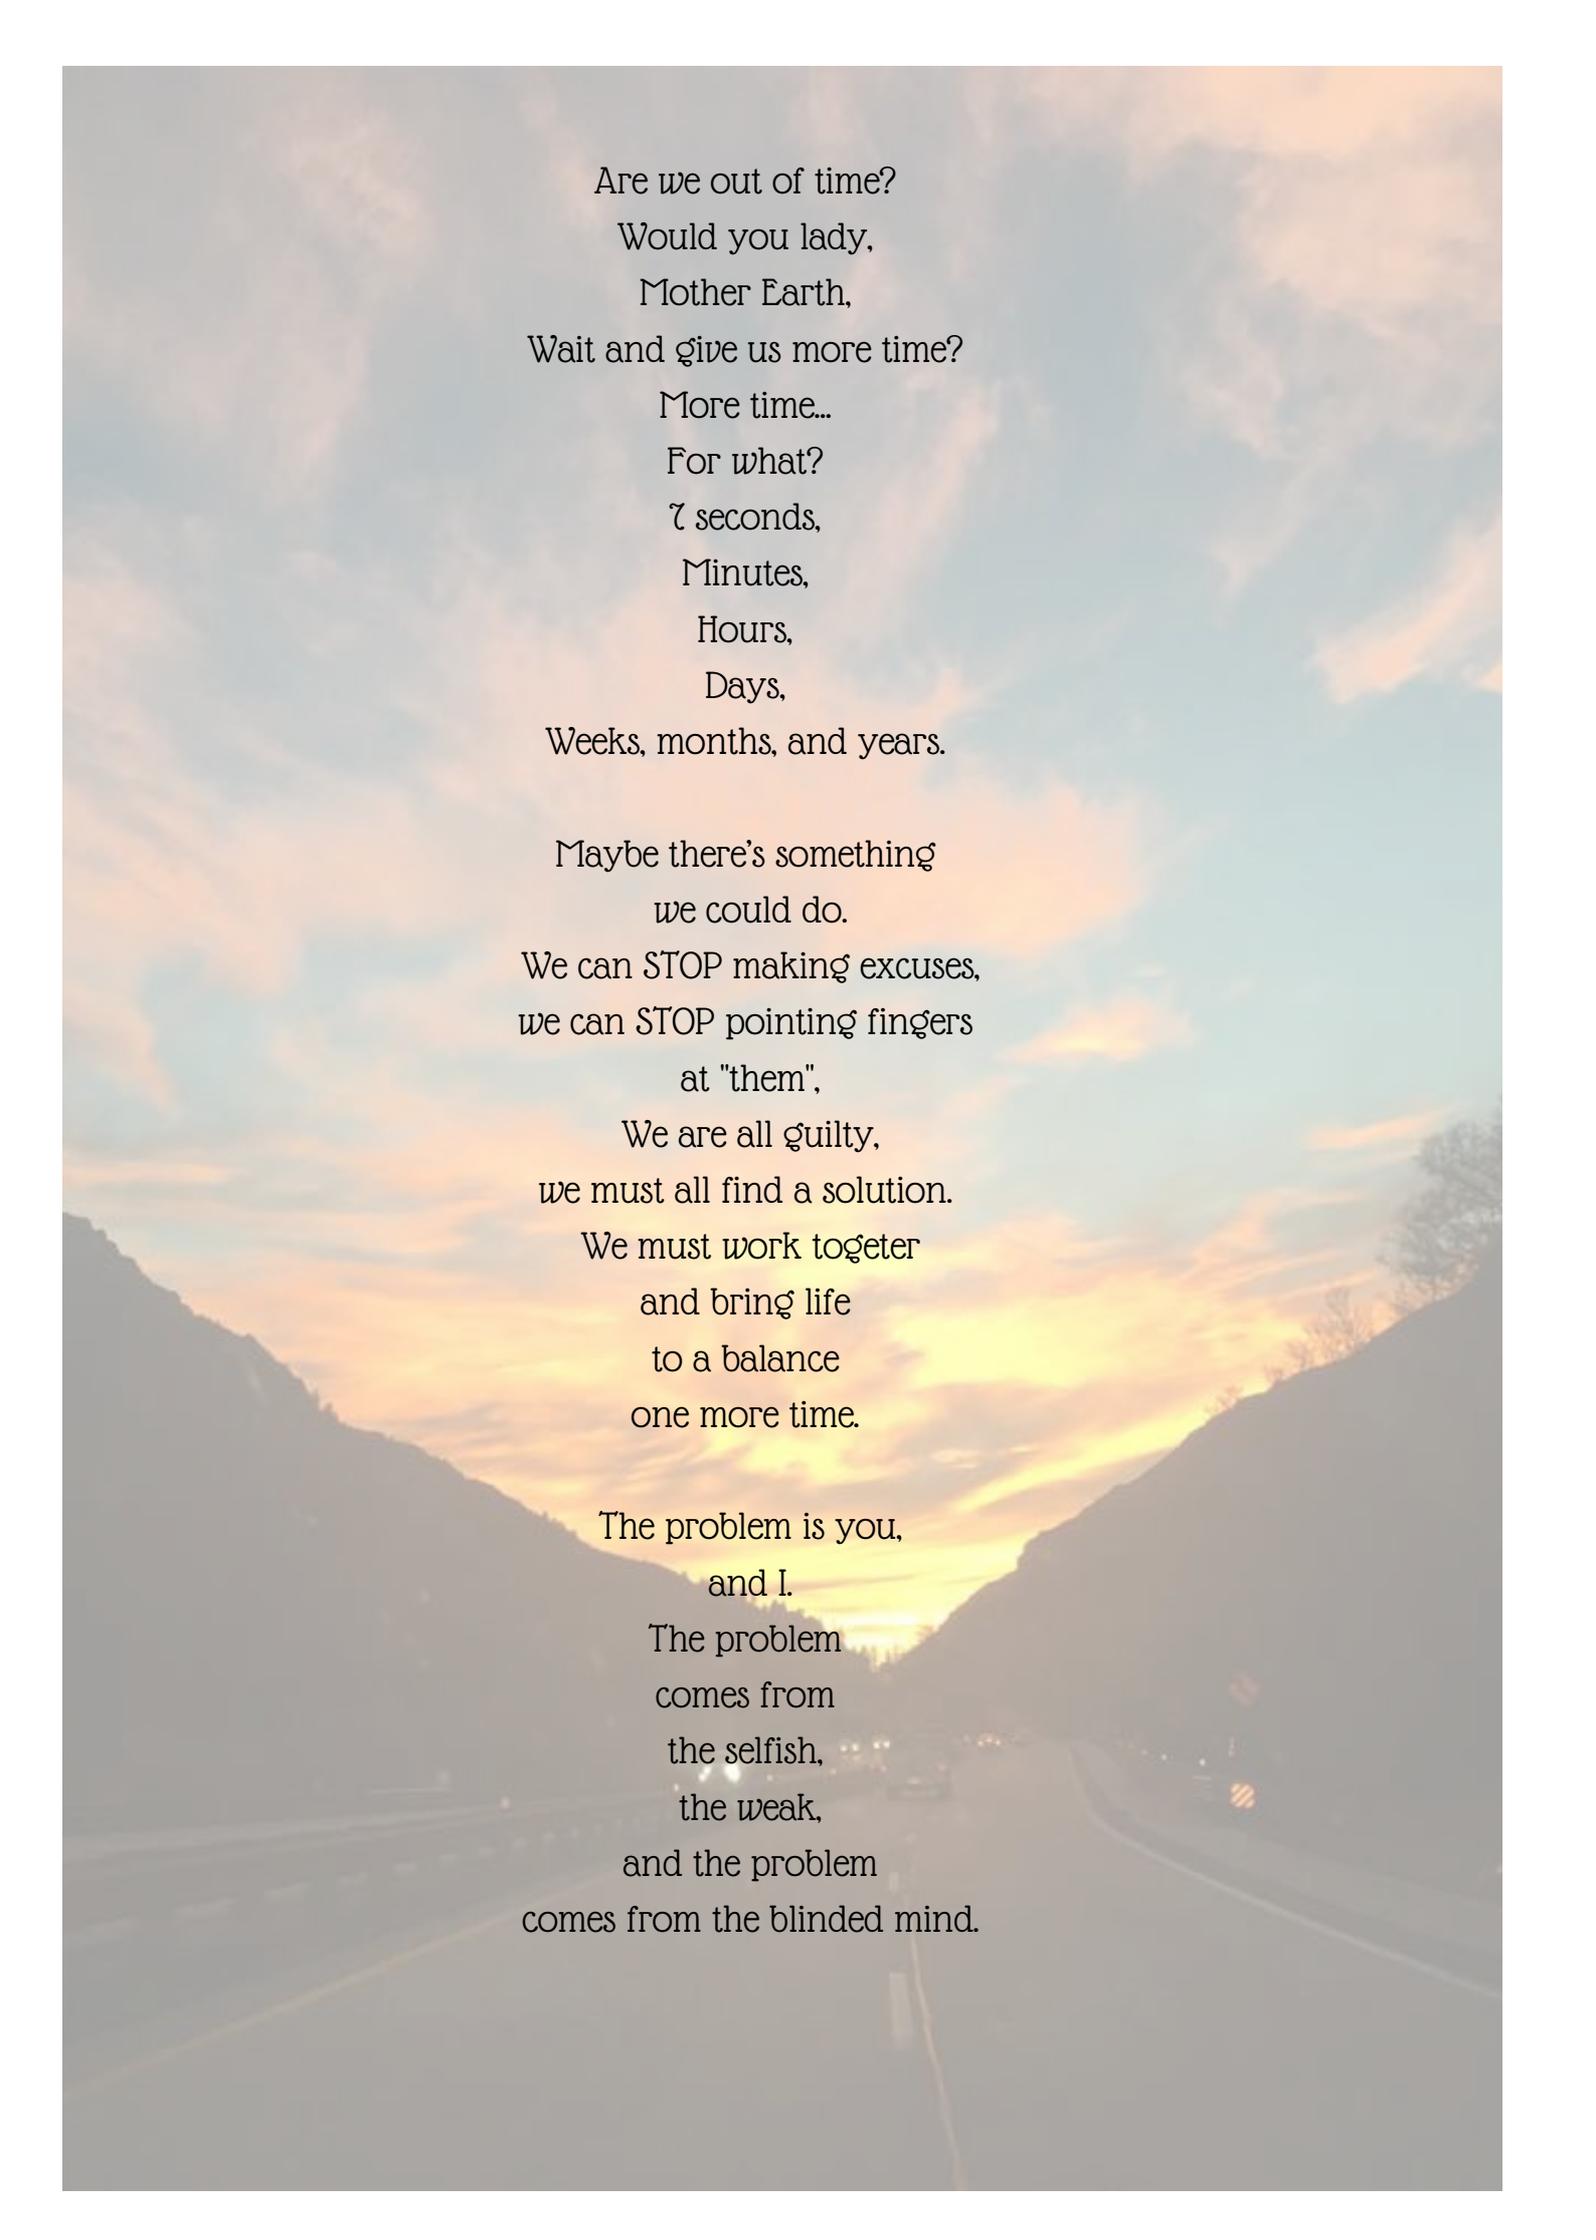

A photograph of a man and a woman embracing in front of a mountain range. The woman is on the left, wearing a white long-sleeved shirt, and the man is on the right, wearing a dark t-shirt. They are both smiling. The background shows a large mountain range with snow-capped peaks under a clear sky. The image is slightly faded to allow text to be overlaid.

We are citizens of the world
We are many,
We can stand together
To defend our rights,
To defend the oceans
and the land.
We owe it to our children,
We owe it to the Creator of our life.

It looks like
it takes seven years.
Seven years
to Clear,
To clean,
To plant,
To grow,
To suffer
and then...
You will see the product
Of your sacrifice.

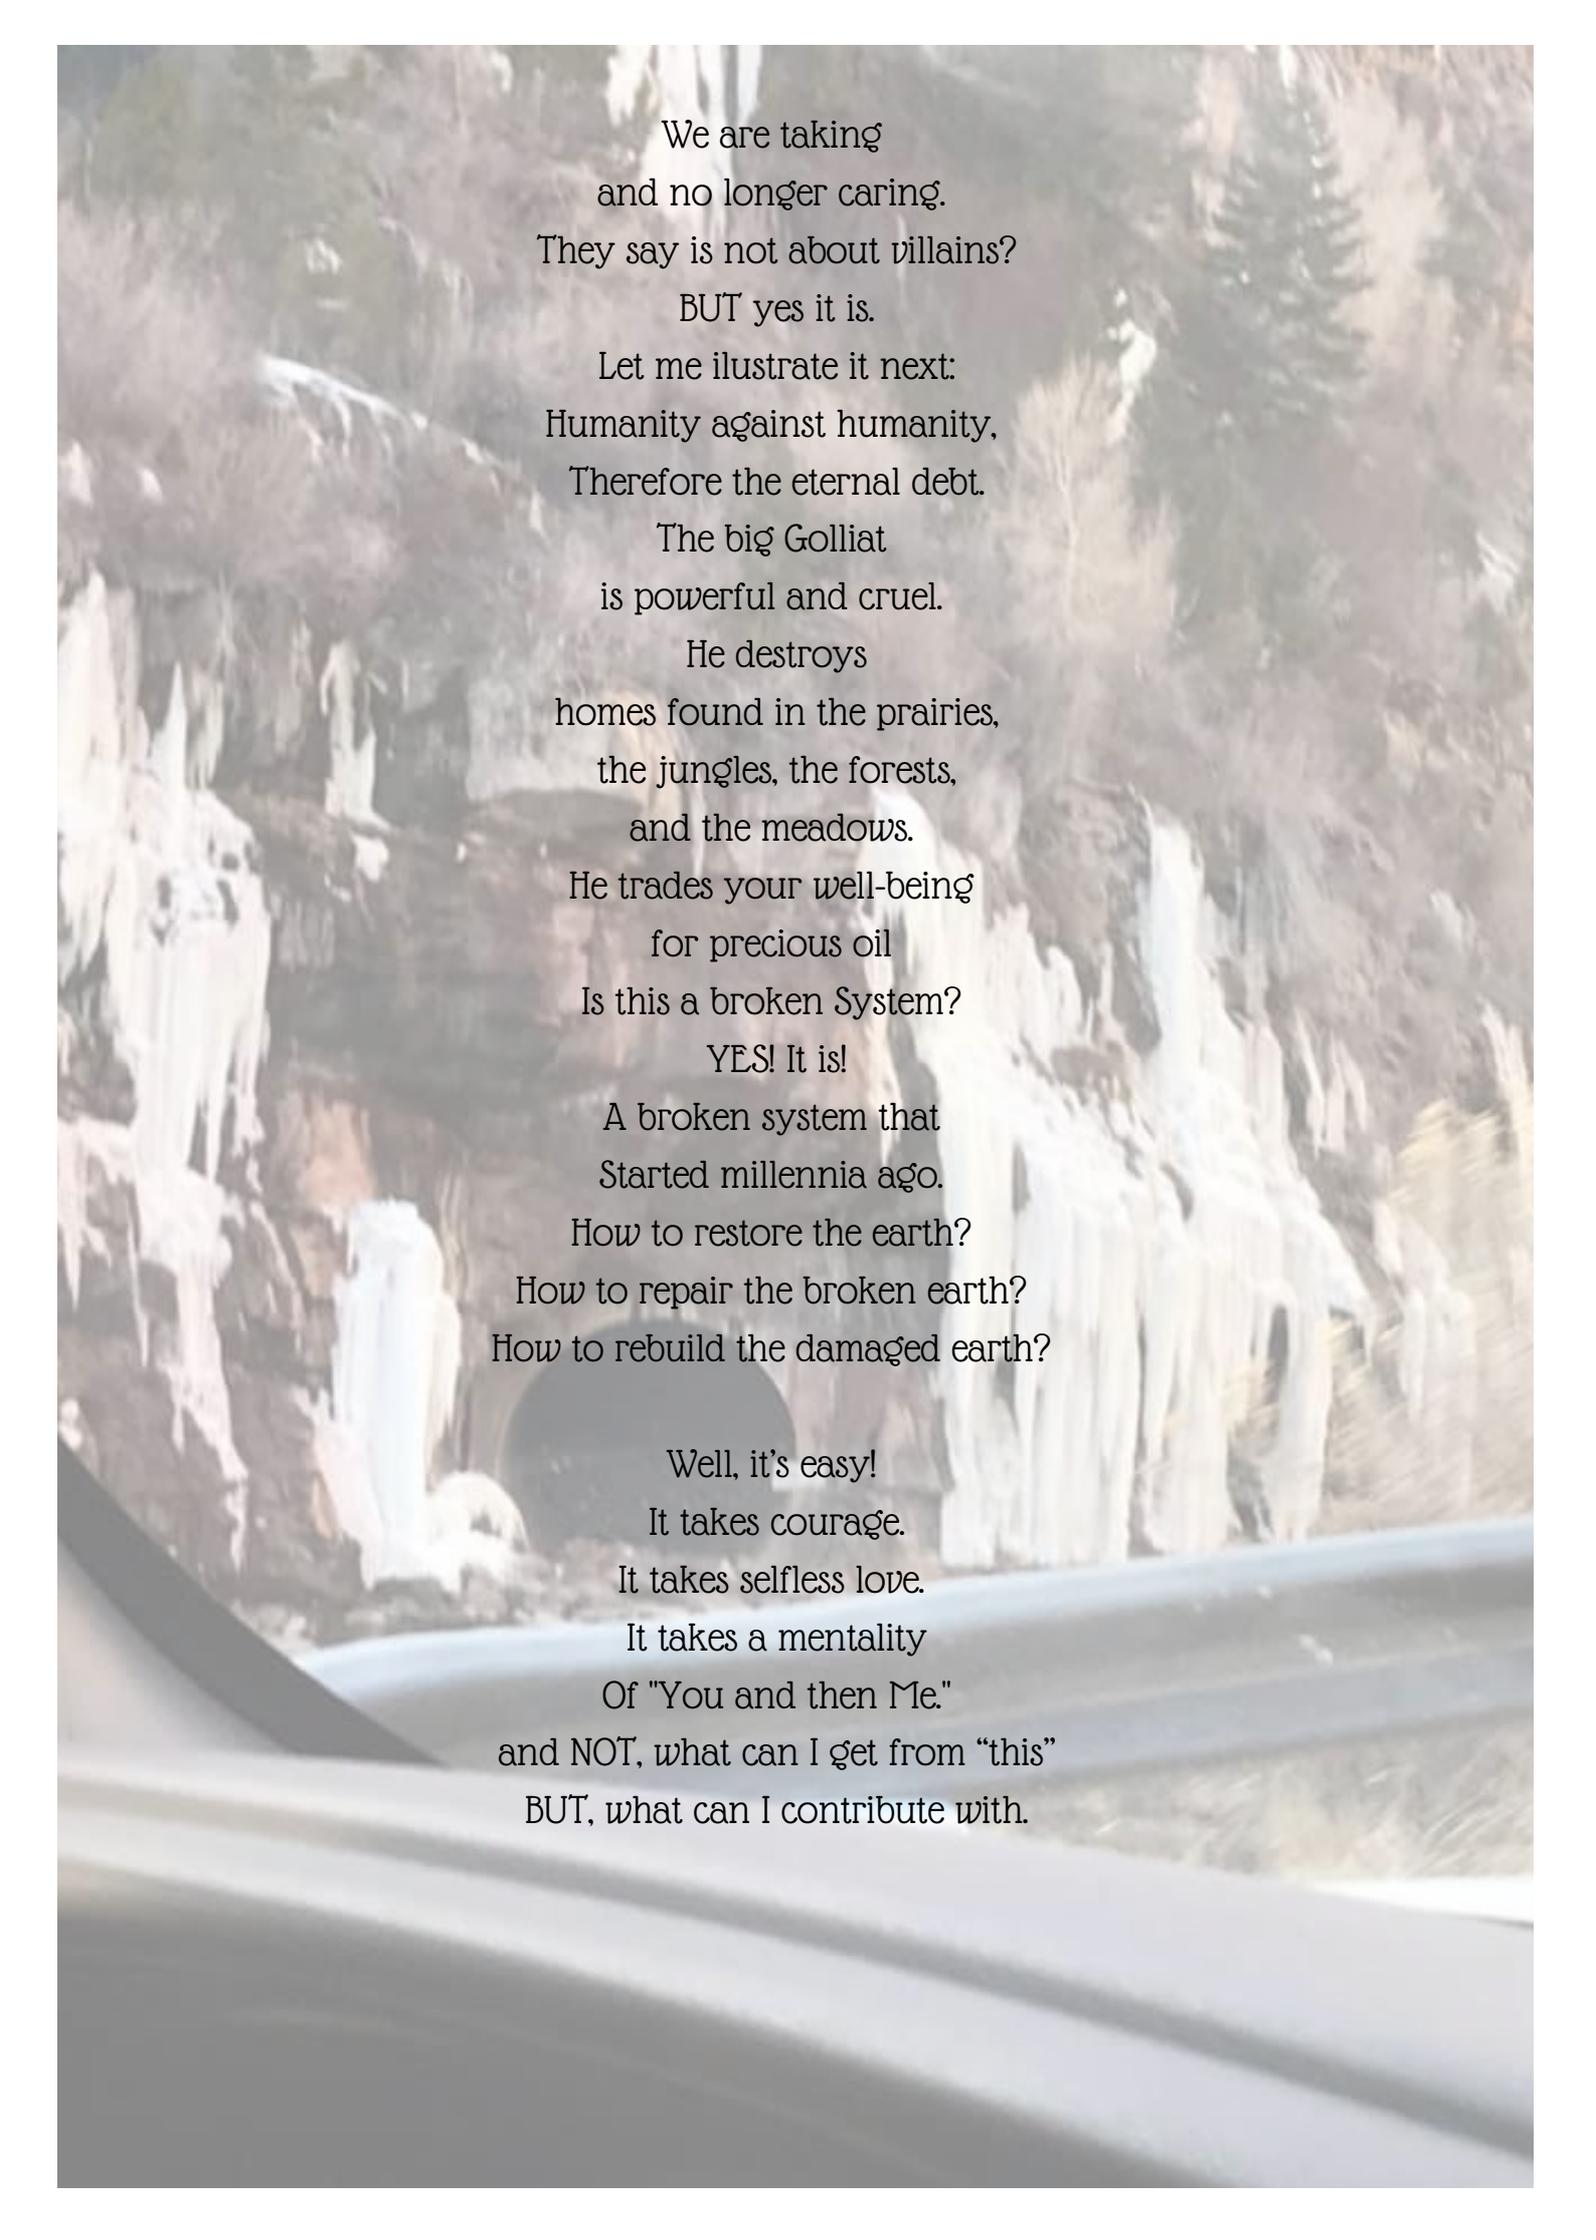

It takes time to
Regenerate,
It takes time
To come to
Our senses.

Are we out of time?
Would you lady,
Mother Earth,
Wait and give us more time?
More time...
For what?
7 seconds,
Minutes,
Hours,
Days,
Weeks, months, and years.

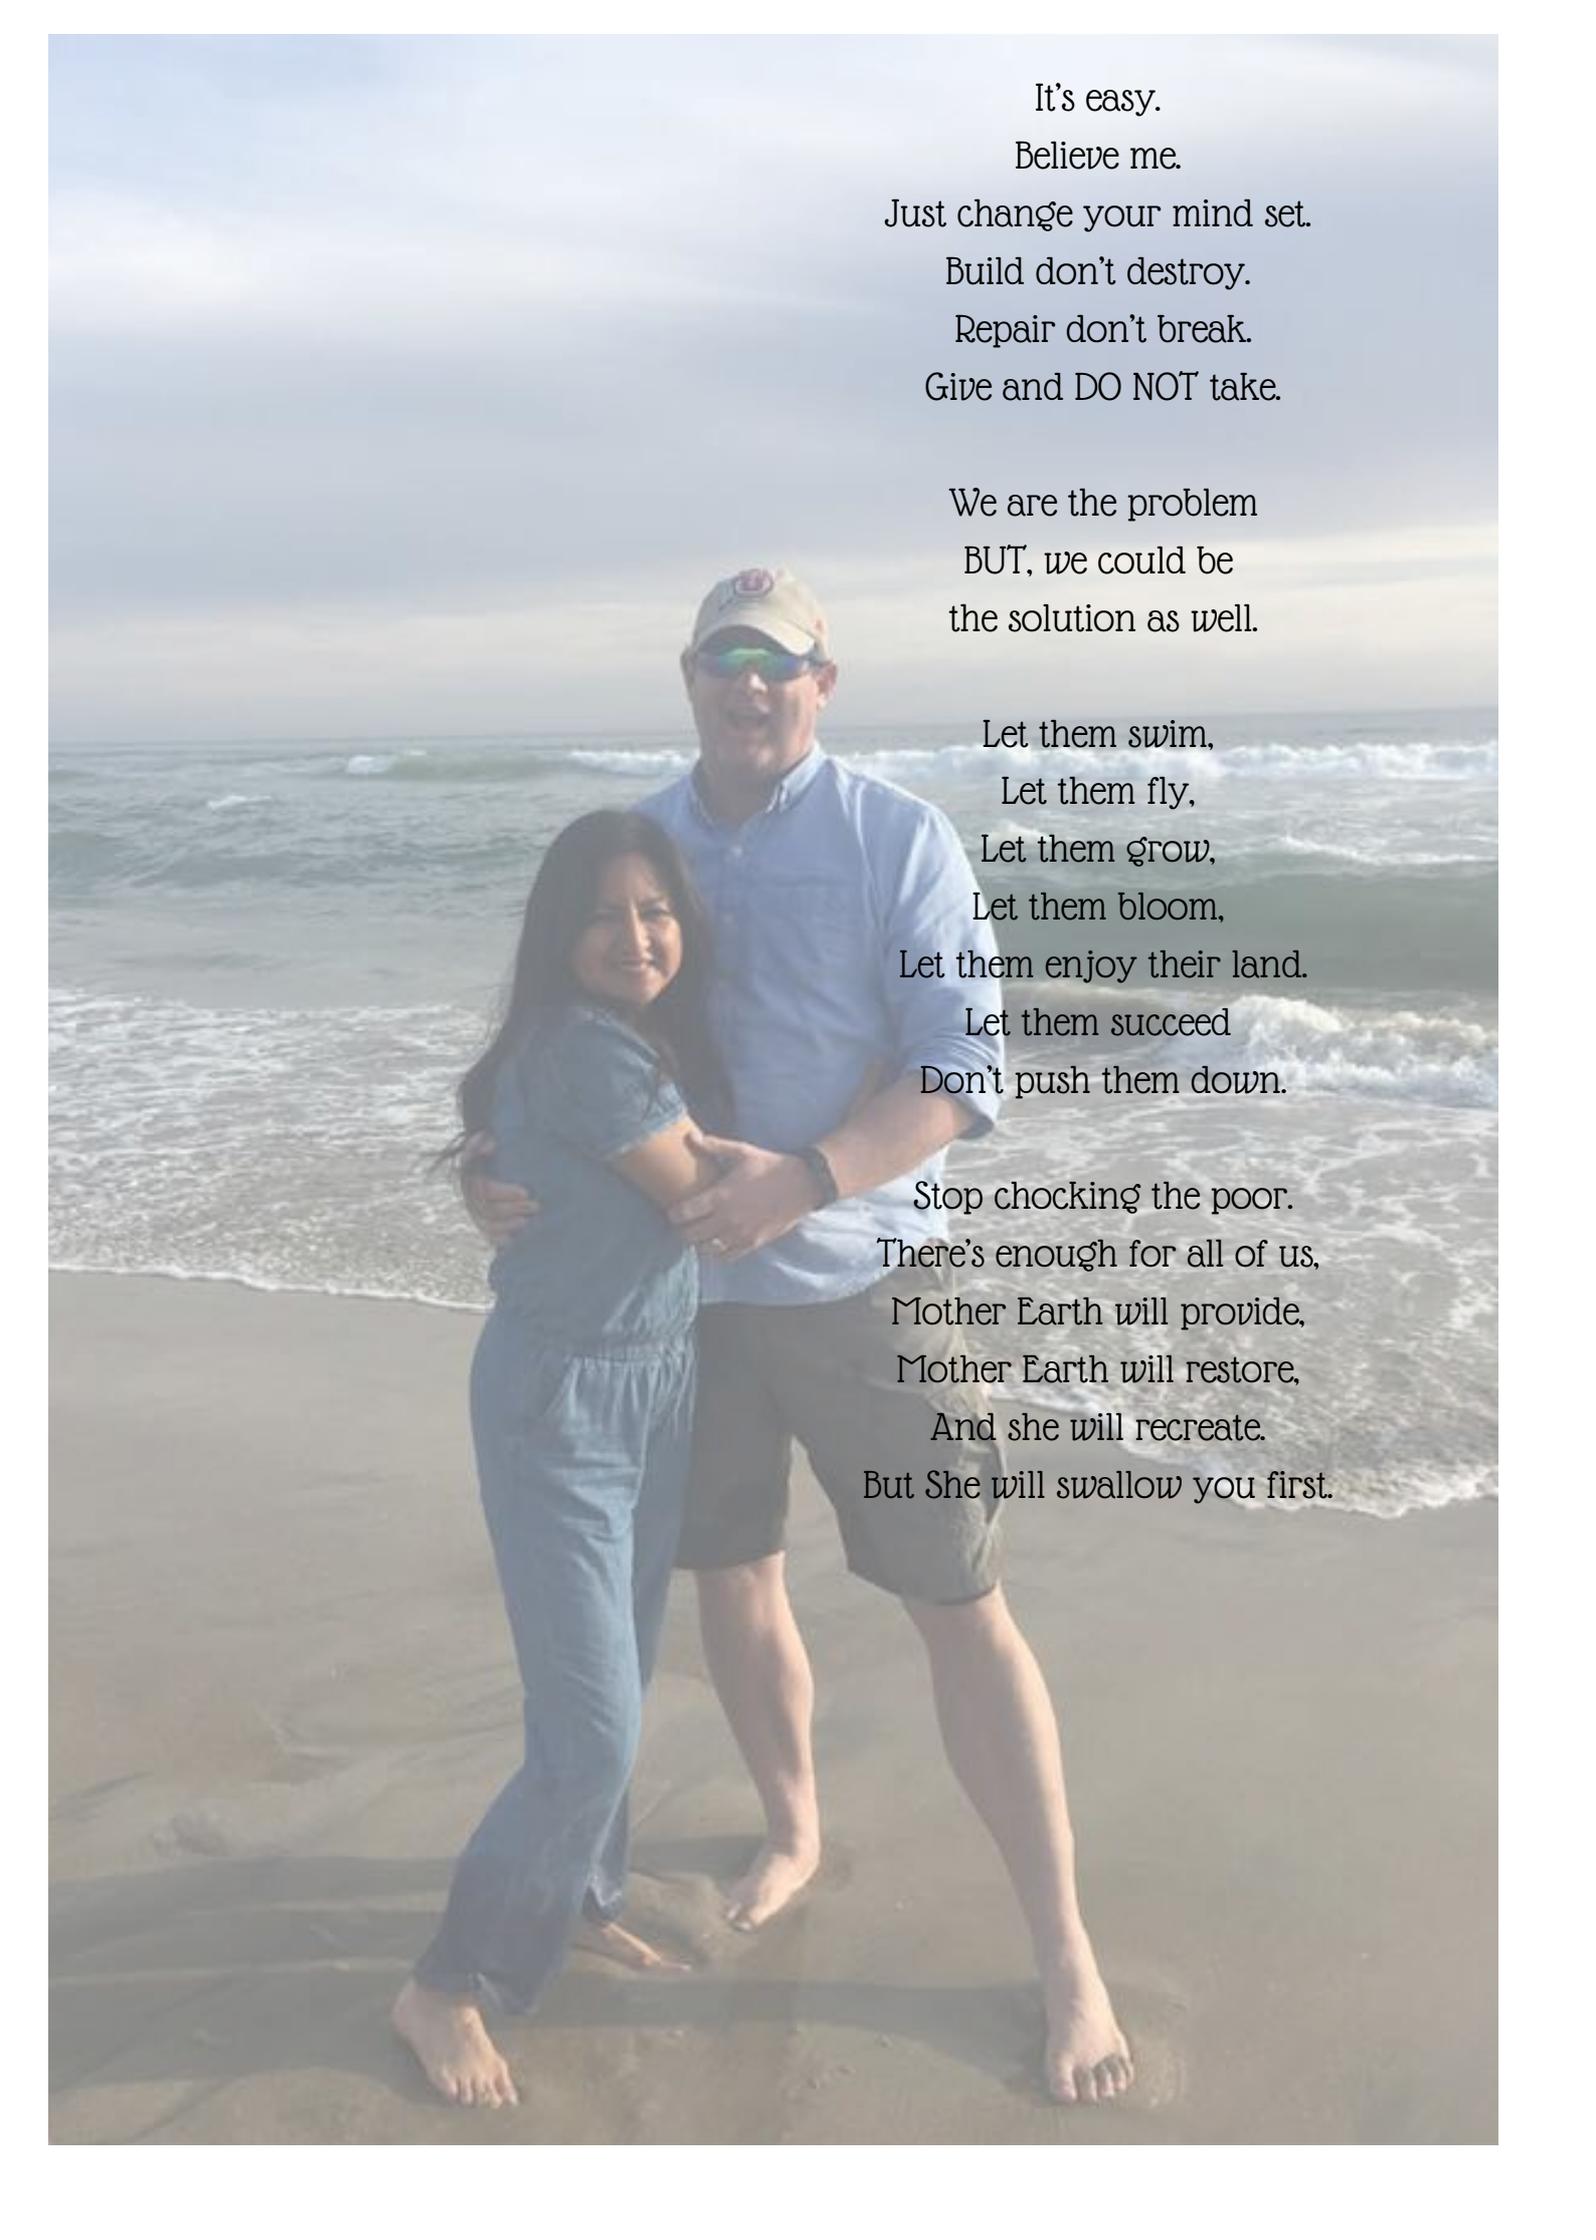

Maybe there's something
we could do.
We can STOP making excuses,
we can STOP pointing fingers
at "them",
We are all guilty,
we must all find a solution.
We must work together
and bring life
to a balance
one more time.

The problem is you,
and I.
The problem
comes from
the selfish,
the weak,
and the problem
comes from the blinded mind.

We are taking
and no longer caring.
They say is not about villains?
BUT yes it is.
Let me illustrate it next:
Humanity against humanity,
Therefore the eternal debt.
The big Goliath
is powerful and cruel.
He destroys
homes found in the prairies,
the jungles, the forests,
and the meadows.
He trades your well-being
for precious oil
Is this a broken System?
YES! It is!
A broken system that
Started millennia ago.
How to restore the earth?
How to repair the broken earth?
How to rebuild the damaged earth?

Well, it's easy!
It takes courage.
It takes selfless love.
It takes a mentality
Of "You and then Me."
and NOT, what can I get from "this"
BUT, what can I contribute with.

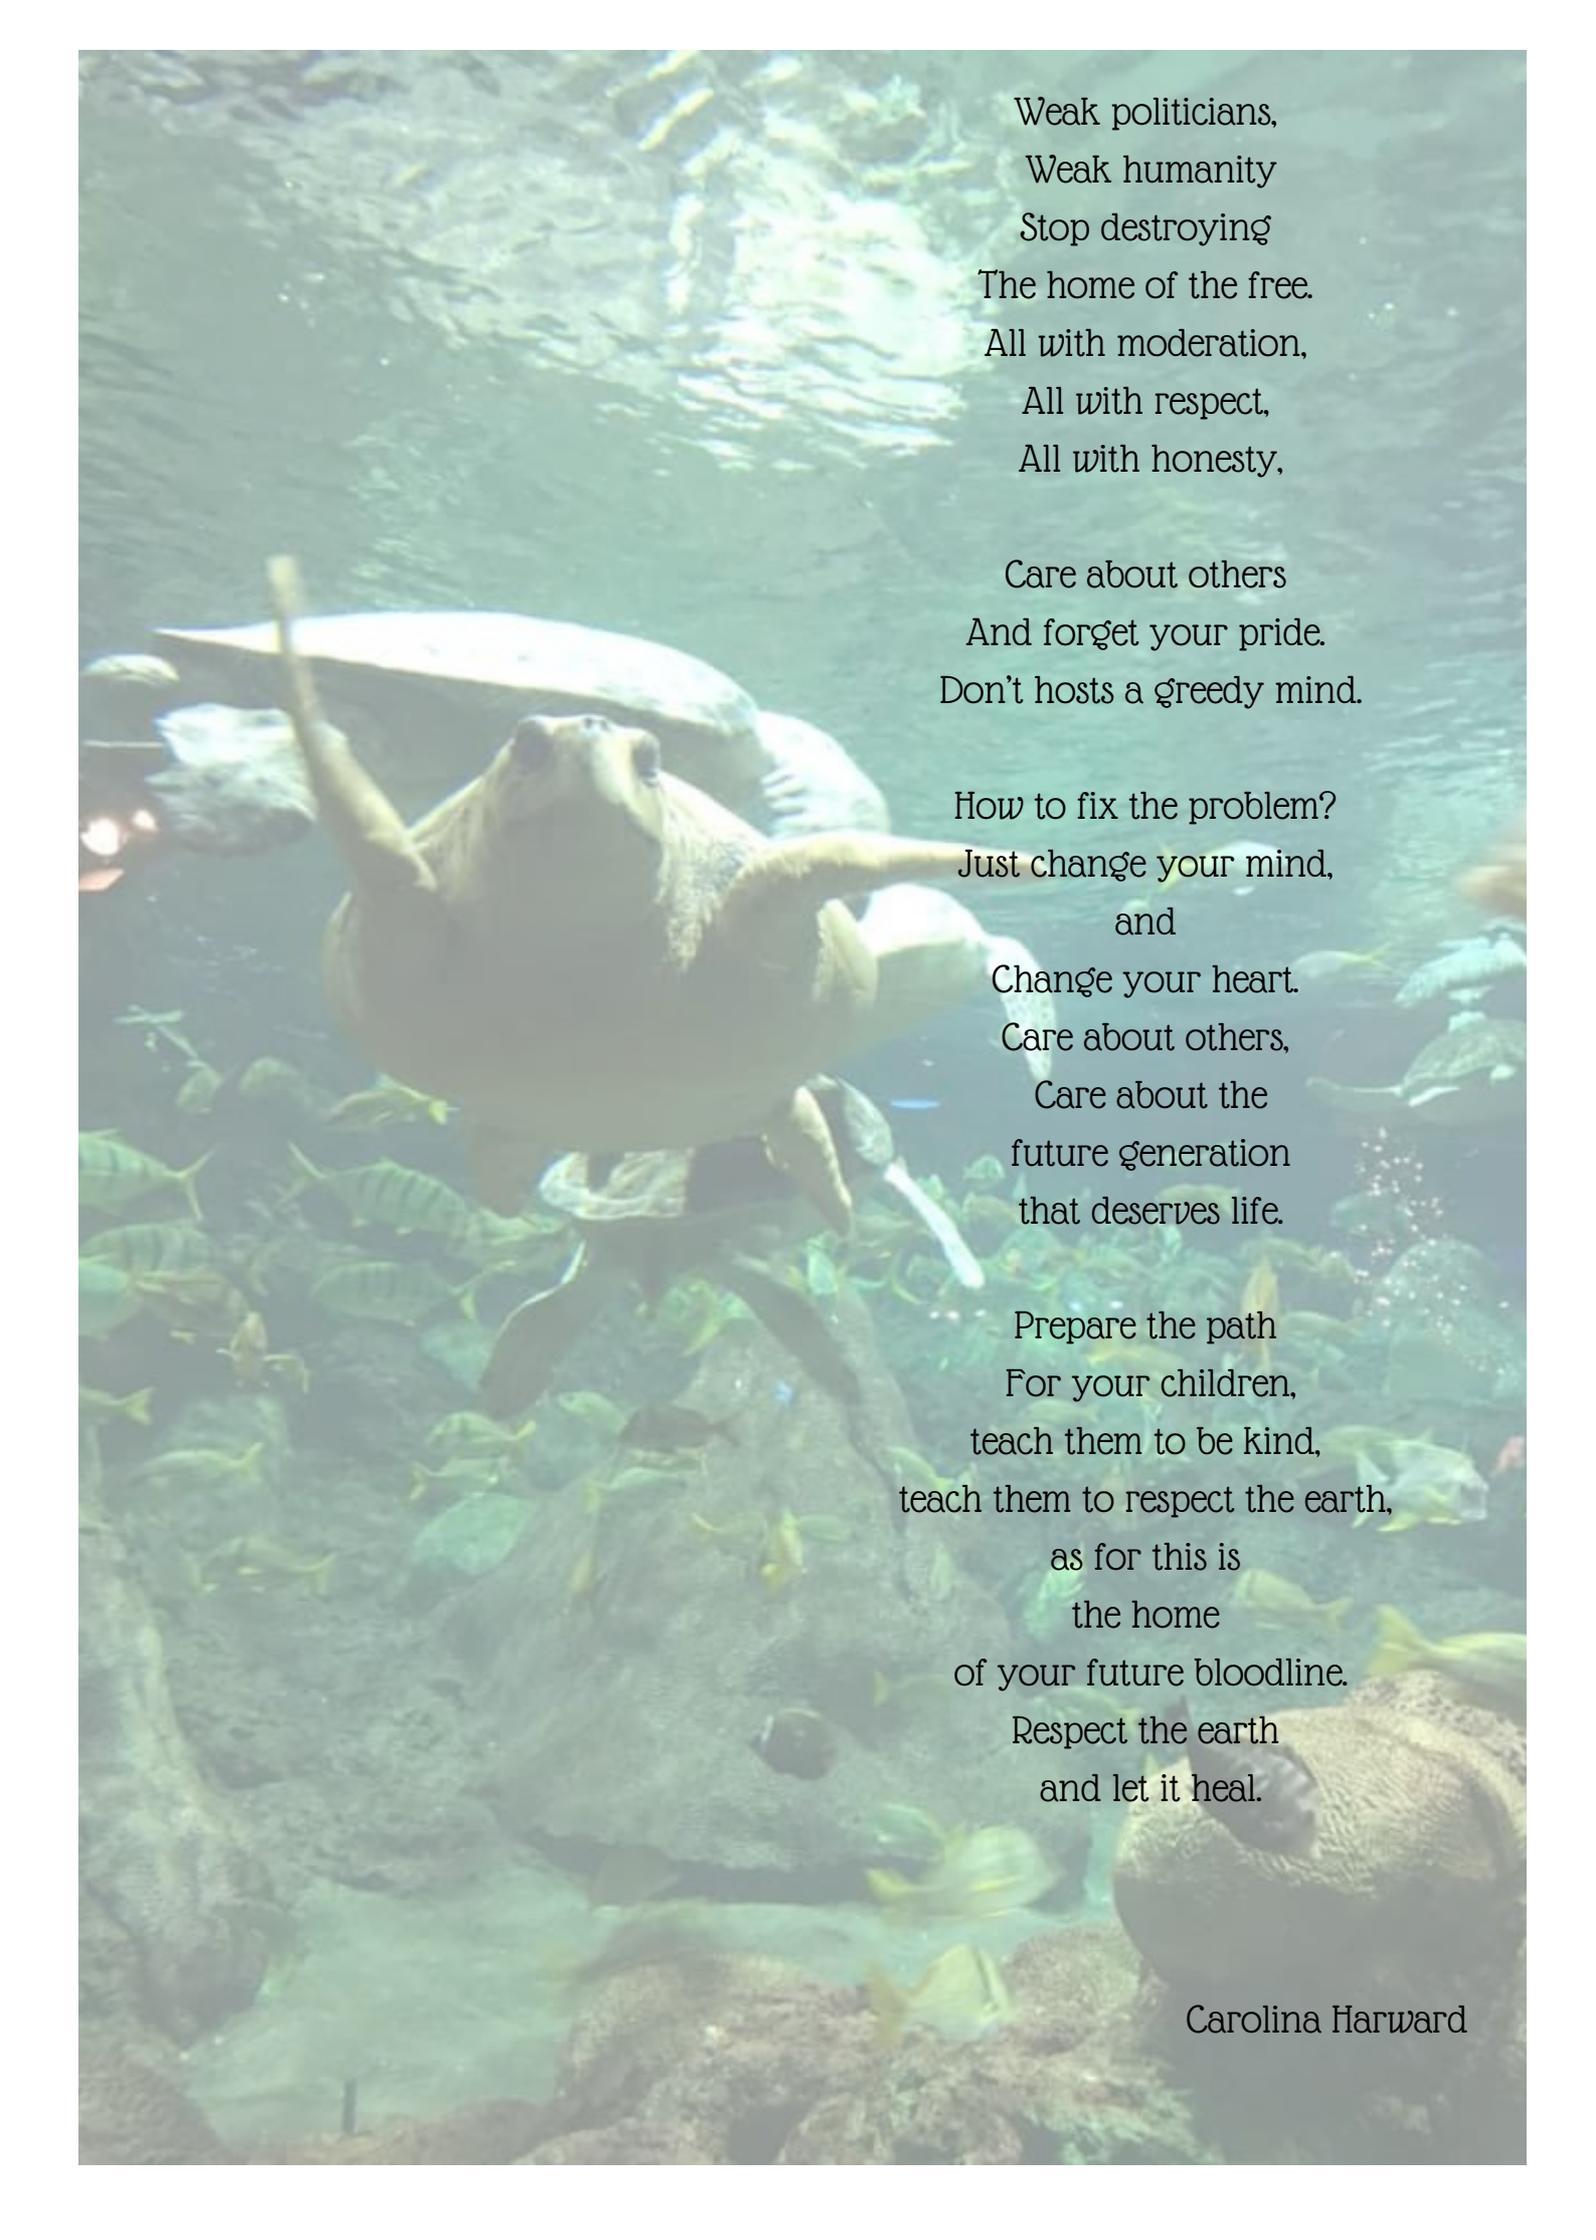

It's easy.
Believe me.
Just change your mind set.
Build don't destroy.
Repair don't break.
Give and DO NOT take.

We are the problem
BUT, we could be
the solution as well.

Let them swim,
Let them fly,
Let them grow,
Let them bloom,
Let them enjoy their land.
Let them succeed
Don't push them down.

Stop chocking the poor.
There's enough for all of us,
Mother Earth will provide,
Mother Earth will restore,
And she will recreate.
But She will swallow you first.

An underwater photograph of a large sea turtle swimming towards the camera. The water is clear and blue, with sunlight filtering through from above. In the background, another sea turtle is visible, and the foreground is filled with many smaller fish swimming around. The overall scene is peaceful and natural.

Weak politicians,
Weak humanity
Stop destroying
The home of the free.
All with moderation,
All with respect,
All with honesty,

Care about others
And forget your pride.
Don't hosts a greedy mind.

How to fix the problem?
Just change your mind,
and
Change your heart.
Care about others,
Care about the
future generation
that deserves life.

Prepare the path
For your children,
teach them to be kind,
teach them to respect the earth,
as for this is
the home
of your future bloodline.
Respect the earth
and let it heal.

Carolina Harward
