

## STUDENT CONTINUANCE EVALUATION - REVISED 3/30/16

CANDIDATE: \_\_\_\_\_ SEMESTER: \_\_\_\_\_ YEAR: Mid1  End1  Mid2  End2  Mid3  End3

It is important that all MFA students meet the expectations of a terminal degree candidate. The right to continue in the program must be based on achievement. The chart below outlines the faculty's assessment of your development. This assessment is used to determine your status within the program. Your status will be established as one of the following:

**FIRST STATUS:** You have met the expectations of a graduate student on an exemplary level. You are encouraged to continue your efforts.

**SECOND STATUS:** You have met the expectations of a graduate student. You have important areas that should be focused on and improved. You are invited to continue as an MFA candidate.

**THIRD STATUS:** You have met some of the expectations of a graduate student. In some areas you are not performing on the level expected to achieve a terminal degree. You must focus on your areas of need. You must achieve a **SECOND STATUS** at the end of the upcoming semester to continue as an MFA candidate unless you are entering your third (or final) year in which case you may not continue.
